
Summer Courses for Little Learners

Keep using your English with our Summer Courses. Any break from regular term-time should be seen as a crucial stage where we should make sure that our students keep up with learning. It is important to maintain contact with the language in some way. In light of this, we have created summer courses.

1) Story Book & Creative Learning

This course focuses on encouraging and inspiring learning through reading. Each lesson will be focusing on reading one Story and attaining new knowledge through consolidating activities. The range of activities offered ensure children enjoy themselves while attaining new skills.

2) Summer Communicate

This course focuses exclusively on Speaking and Communication. A selection of lessons, videos, games, and activities that require students to share in the learning experience through active language participation.

3) Expand the Mind

This course focuses on general knowledge and expanding student's awareness. It will focus on one topic each week (World Map, Oceans, Countries, and Continents).

These summer courses and timetable of the program have been strategically chosen to ensure optimum results.

All courses are offered between July 3rd – July 26th. Students can come per week/month/lesson.

1) Story Book & Creative Learning
